

*Sunray* is a blissful lounge designed specifically for relaxation in a fashion well suited to the antipodean 'bronzed aussie' ethos. Inspired by the languid form of the manta ray, the *Sunray* lounge is ergonomically engineered to maximise comfort and exude luxury for those who know the meaning of indulgence and repose. Ideal for hedonistic poolside environments, *Sunray* can be made from 100% recyclable plastic to weather the ravages of the outdoors, and is stackable.
