

coral 55 seating 'curve' + 'planter end + seat end' +armrest | design brian steendijk | 120706

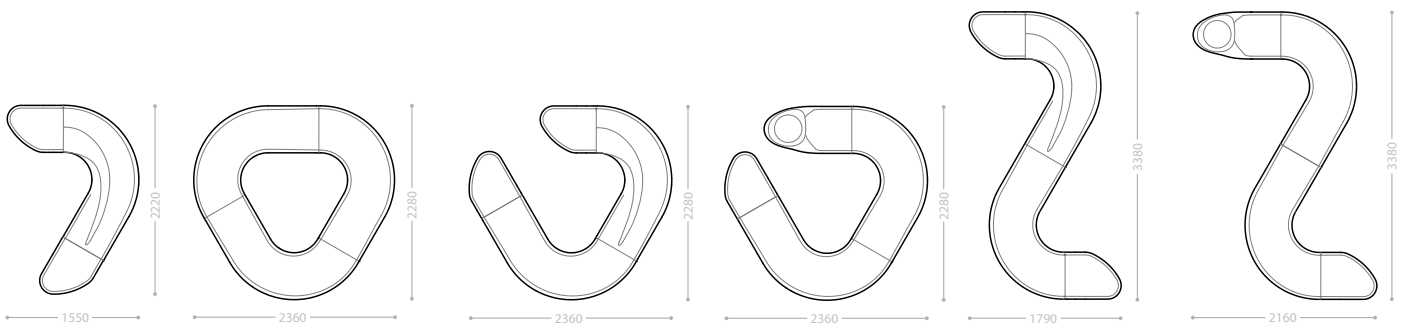

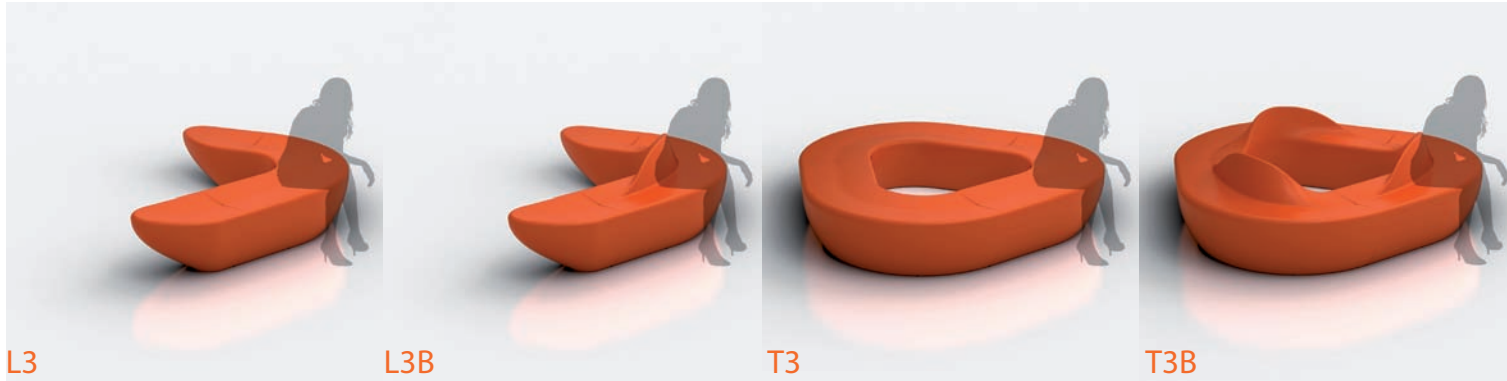

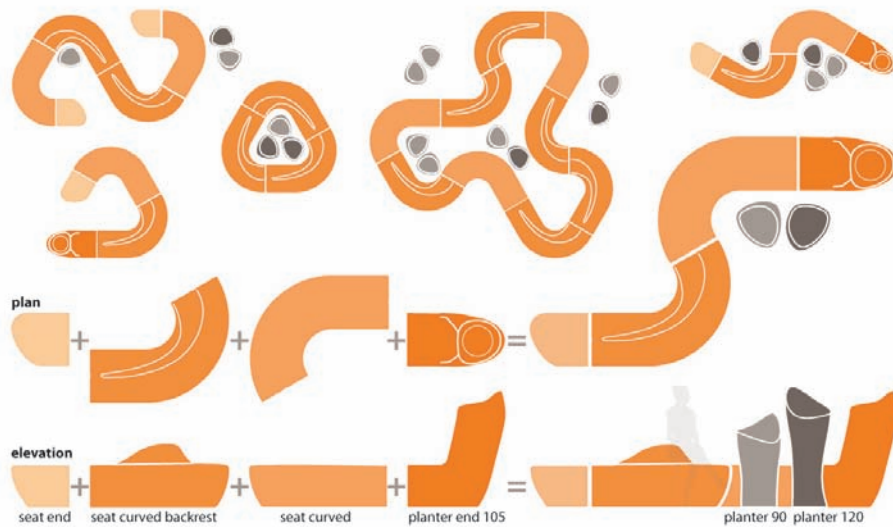

The *Coral seating* with planter brings with it a unique style and panache, and a multitude of possibilities. The curved seat, planter end, and seat end join together, allowing a wide variety of configurations to suit your needs. The gentle angle of the planter end further provides a comfortable backrest to enjoy a respite from the busy day. A specialised self-watering system ensures plants enjoy extended life and beauty, and look their best for longer. Suited to both indoor and outdoor environments *Coral seating* is made from durable polyethylene, a recyclable and UV resistant plastic, and comes in a range of vibrant and earthy colours.

coral 55 configurations | design brian steendijk | 120706

Coral 55 Configurations gives you an easy selection of seating options utilising *Coral seating* components with backrest and planter options. *Coral seating* can be joined together to create a multitude of configurations to cater to all your needs.
