

Polyp

Steendyk has teamed up with leading rug manufacturers Interior Equipment to produce an exciting range of signature rug designs for the contemporary urban habitat. A beautiful range of three limited edition designs (*Syrup*, *Riva*, *Polyp* and *Bobble*) have been carefully crafted using the natural fibres of New Zealand wool to produce luxuriously deep, cup pile rugs.

The *Syrup* is a creative expression of fluidity captured in a two-dimensional plane. The viscous nature of syrup inspires and lends its name to this enchanting piece. *Riva* derives its forms from the meandering Brisbane River. The sinuous character of the river is encapsulated in the rug's wondrous play of interwoven curves. *Polyp* is inspired by the flowering coral of the Great Barrier Reef. The motif creates an energetically confident display of form and texture. All rug designs are available in a variety of colours and a choice of two sizes – 3567 x 2533mm or 2378 x 1682mm.
