

Dove is the inspired sculptural expression of the beauty and movement of a bird, wings swept back, about to take flight. The stackable Dove metal stool is also informed by the fast pace of our lives, with little time to rest and recline. Dove's versatility allows us to bring a sense of grace to our lives and can be sat upon from different directions, stacked quickly, and moved at a moments notice. Quick, convenient and dynamic, the Dove wire stools come in a variety of heights including 44cm and 77cm, ideal for café, bar or residential environments. Dove is flight captured in a chair.
